

- **Give a matched gift**

One of the easiest ways to increase the impact of your gift to Amazon Promise is through your employer's Matching Gift program. Thousands of companies match employee contributions - sometimes up to three times the initial amount of the gift! Some companies even match volunteer time. Check with your human resources department to determine if your company matches donations.

- **Make a tributary or memorial gift***

Express your gratitude, respect, friendship, or love for a friend or loved one by making a gift to Amazon Promise. With your gift, you may choose to enclose information about the individual or family you are honoring, and we will send them a personalized note card.

- **Make an alternative gift***

In place of a birthday, anniversary, or special holiday, make a gift to Amazon Promise in the name of a colleague, friend, or loved one. For a minimum gift of \$10, Amazon Promise will send a personalized note card to the person(s) you designate.

- **Make a gift of stock**

While we do not currently accept donations of stocks, you could make a monetary donation to Amazon Promise via your Donor Advised Fund. For more information, please contact Amazon Promise Treasurer, Jackie Carroll, at jackie@amazonpromise.org.

- **Create a legacy**

Find the perfect balance between supporting Amazon Promise and your personal financial goals by naming Amazon Promise as a beneficiary of your will, life insurance policy, or retirement plan. Such thoughtful foresight and generosity can also allow donors to maximize their estate through tax benefits, receive income, and support Amazon Promise today and well into the future. For more information, please contact Amazon Promise Fundraising and External Affairs Director, Kristina Server, at kristina@amazonpromise.org.

* If you are making a tributary, memorial or alternative gift using PayPal, please also send an email to jackie@amazonpromise.org with your name, gift amount, and the name and address of the person you would like notified of your gift.

Thank you for supporting Amazon Promise.
